Pacific Island View HOA
P.O. Box 669
Ventura, Ca. 93002

Dear PIV HOA:

This letter is to inform you that since my last attendance to your monthly meeting few months ago, I have continued to have problem with the CAT DROPPINGS on my property.

I have followed your suggestion of using pet repellent to help counter this problem. Although I've used it regularly it doesn't always work, and in the last few weeks the problem has exacerbated.

One or two days after I spread the repellent I find feces everywhere, which makes it hard no to step on, and just recently discovered that my attic is also a hide out and dumping grounds for these cats.

I have determined that there are at least four cats coming here to discharge their bowels and since the cost of buying the repellent is \$ 13 per can, and using at least five cans per month is affecting my pocket I decided I will try other methods to cope with this problem.

Traps to remove the intruders will be the method to be used for now. These traps will be set RANDOMLY throughout the front and side yards and at RANDOM days during the weeks.

Therefore, warning to tenants owning a pet is advised, so there will be no surprises in the event one of these is trapped and removed from the premises.

Sincerely,

Renato Santizo
